PROFFESIONAL PROFILE

I enjoy being efficient on my daily life, actively optimizing my tasks and valuable time. This approach woke up my interest in Systems Engineering, which is the career I'm studying at Universidad Tecnológica Nacional Regional Delta (UTN FRD, Argentina, Buenos Aires) since 2023, currently in 4th year. I'm eager to keep learning and also looking for my first professional opportunity.

PROJECTS

WOLLOK GAME (O.O.P.) - 2024 (UNIVERSIDAD TECNOLÓGICA NACIONAL - 2024 (UTN)

Two-Dimension simulation team project based in Super Mario, with interactive functions using Wollok Object-Oriented language

SYNTAX-LEXICAL ANALIZER - 2024 (UTN)

Developed a custom lexical and syntactic analizer using Python to process and validate formal languages by tokenization logic and grammar validation rules.

''RUTEANDO'' - LOGISTICS AND ROUTE OPTIMIZATION APP - 2025 (UTN)

Software Design and Development team project for managing and monitoring delivery routes for logistic purposes, deployed in Angular/Node.js + Django/Google Maps API

"AYUDAPI" - EMERGENCY MEDICAL ASSITANCE PLATFORM - 2026 (UTN)

Software Design, development and management of quality and safety standards team project for an emergency medical assistance platform that any citizen could use to assist another one in a critical situation in public places. Deployed in a client-server model backed by PostgreSQL+ MinIO, Prometheus + Grafana and Opencode as an AI code agent.

WORK AREAS

- Systems analysis and design
- Software development and QA
- UX/UI Design
- Data entry
- devOps
- Back Office
- Technical communication (English - Spanish)

SOFT SKILLS

- **Analytical thinking**
- **Compromise**
- **Teamwork**
- **Perseverance and optimism**
- **Process abstractionn/optimization approach**
- **English - Advanced**
- **Spanish - Native**
- **Italian - Intermediate**

EDUCATION

- **High School: Colegio Dante Alighieri (Campana, Buenos Aires, Argentina).** Bilingual Bachelor, **Cambridge IGCSE** Certificate. **(2015-2021)**
- **University: Universidad Tecnológica Nacional Regional Delta. (Campana, Buenos Aires, Argentina).** Systems Engineering career, currently on 4th Year. **(2023-2028)**
